

# Area de círculos

13-10-21

El área es la medida de la superficie que abarca una figura.

Perímetro

¿Cómo hallar el área de un círculo?

Para hallar el área se utiliza la siguiente fórmula:

$$\pi = 3.1416$$

Formula  $A = \pi \cdot r^2$

$$A = 3.1416 \cdot 7^2$$
$$A = 3.1416 \cdot 49$$
$$A = 153.94$$

Respuesta: 153.94 cm

¿Cómo hallar el área de un círculo?

Para hallar el área se utiliza la siguiente fórmula:

$$\pi = 3.1416$$
$$A = \pi \cdot r^2$$
$$A = 3.1416 \cdot 11^2$$
$$A = 3.1416 \cdot 121$$
$$A = 380.13$$

Actividad No. 5  
Area de Circulos

Semana 5

13-10-21

Salomé Monzón / 4to Bilingüe

$$A = \pi \cdot r^2$$

$$A = 3.1416 \cdot 9^2$$

$$A = 3.1416 \cdot 81$$

$$A = 254.47$$

Respuesta  
254.47 cm

$$A = \pi \cdot r^2$$

$$A = 3.1416 \cdot 8.25^2$$

$$A = 3.1416 \cdot 68.06$$

$$A = 213.82$$

Respuesta

213.82

$$A = \pi \cdot r^2$$
$$A = 3.1416 \cdot 5.5^2$$
$$A = 3.1416 \cdot 30.25$$
$$A = 95.03$$

Respuesta  
95.03

2.25 cm

$$A = \pi \cdot r^2$$
$$A = 3.1416 \cdot 2.25^2$$
$$A = 3.1416 \cdot 5.06$$
$$A = 15.90$$

Respuesta  
15.90

$$A = \pi \cdot r^2$$

$$A = 3.1416 \cdot 7.40^2$$

$$A = 3.1416 \cdot 54.76$$

$$A = 172.03$$

Respuesta

172.03

$$A = \pi \cdot r^2$$

$$A = 3.1416 \cdot 3.5^2$$

$$A = 3.1416 \cdot 12.25$$

$$A = 38.48$$

Respuesta:  
38.48

4.8 cm

$$A = \pi \cdot r^2$$

$$A = 3.1416 \cdot 2.4^2$$

$$A = 3.1416 \cdot 5.76$$

$$A = 18.10$$

Respuesta:  
18.10
