

Calcular media aritmética mediana y moda.

L	A	L _{vs}	L _{vs}	X	S	F _a	F _{vs}
52	58	51.5	58.5	55	9	9	49.5
59	65	58.5	65.5	62	4	13	248
66	72	65.5	72.5	69	6	19	414
73	79	72.5	79.5	76	9	28	684
80	86	79.5	86.5	83	8	36	415
87	93	86.5	93.5	90	2	38	180
90	100	89.5	100.5	95	1	39	95

$$\Sigma F = 36 \quad \Sigma F_{vs} = 2531$$

$$\bar{X} = \frac{2531}{36} = 70$$

$$A_1 = 9 = 6 = 3$$

$$A_2 = 9 = 5 = 4$$

$$MO = 72.5 + \left(\frac{3}{7}\right) 9$$

$$MO = 72.5 + (13 - 19) 9$$

$$MO = 72.5 + (0.43) 9 \quad MO = 72.5 + \left(-\frac{1}{9}\right) 9$$

$$MO = 72.5 + 3.87$$

$$MO = 72.5 + (-0.11) 9$$

$$MO = 76.37$$

$$MO = 72.5 + -0.99$$

$$MO = 71.51$$
