

Hi my names is sergio and I listened one story on the street and I'm going to tell you, about the one woman who life in the top on montain they say she has a farm where they life many animals, to the woman She like the life next to animals, therefore every day play with animals, for morning she like run fast the animales enjoy the time who pass whith the woman they also say walk one men more big that one bear and that eat rocks they say that the man is husband of the woman I know it sounds crazy but listen heard that, and that was all I heard I'm sorry, now I think it's just one story because what person eats rocks So the story is not real but what do you think? That's all for today Take care bye.
